Hello Mark,

Again let me apologize for not calling you back yesterday. I think it simply slipped my mind during the drive home. I read your quote to the Idaho Statesman for today's request. I will pass it along to my team. If you wouldn't mind giving me a call when you have a moment (208) 989-8855, I would like to touch base with you for moving forward. Also cc'd on this email is my colleague Dave Crumrine. Dave is a member of the US Ecology team and the person I am working directly with as we provide information to the Press.

I look forward to speaking with you in the near future.

Ysabel

Hi Ysabel! I am the Public Information Officer for the US EPA, supporting our OSC Stephen Ball at the scene of the recent incident @ US Ecology.

Please put me on your e-mailing list for any releases/advisories you may issue. I will happily do the same for you! At this point, we have no plans to issue anything in writing, but if called would simply say something like:

"EPA was notified of the event on Saturday and have dispatched an On-Scene Coordinator to the scene for a first-hand look. We are currently evaluating how we can best support the response, in partnership with the state of Idaho and Company response personnel."

If you have any questions about our role or other information, please don't hesitate to contact me!
